

Swiss Life Global Solutions and Amundi join CACEIS's TEEPI platform

CACEIS's Tailored Electronic Exchange Platform for Investors (TEEPI), available since December 2016, is a platform for exchanging files needed to produce regulatory reports under Solvency II, MiFID II and PRIIPs regulation. Swiss Life Global Solutions, a key insurance and wealth management player in Luxembourg, and Amundi, the leading European asset manager, have joined TEEPI in light of the solution's many advantages for management companies and insurers.

Rui Pinto, Head of Finance at Swiss Life Global Solutions notes: *"The TEEPI platform is open to all management companies and institutional investors, regardless of whether they are CACEIS clients. It therefore provides an opportunity to develop an extensive network to collect the data required by the regulatory authorities. Moreover, the mandatory industry formats of the files are guaranteed by the controls integrated into the platform."*

Xavier Barrois, General Secretary of the Support and Development Division at Amundi, explains: *"Now that we have created a TEEPI profile, we are visible on the platform. This makes it considerably easier to transfer data to institutional investors who are also part of the network."*

Joe Saliba, Deputy CEO of CACEIS, adds: *"We are delighted that leading players such as Swiss Life Global Solutions and Amundi are joining TEEPI. This provides confirmation that there is interest in this new offering."*

About CACEIS

CACEIS is the asset servicing banking group of Crédit Agricole dedicated to institutional and corporate clients. Through offices across Europe, North America and Asia, CACEIS offers a broad range of services covering execution, clearing, depositary and custody, fund administration, middle office outsourcing, forex, securities lending, fund distribution support and issuer services. With assets under custody of €2.5 trillion and assets under administration of €1.6 trillion, CACEIS is a European leader in asset servicing and one of the major players worldwide (figures as of 31 December 2016).
